From my point of view our college is modern and well-designed. It is a three-storey building

with a sports ground behind it. I really think it is the best educational institution in Moscow. We even have an inside swimming pool!

On the ground floor there are the classrooms for the first-year students, workshop and library. There are all kinds of tools and machines in the workshops. In the library two librarians help students to find the books they need. In the reading room there are laptops which we can use during the breaks and after classes.

Our canteen is spacious, light and clean. We have our meals there.

The physical training lessons take place in the gymnasium and the swimming pool. We like to go there even after the lessons. To the left of the gym there is a hall and a staircase. The staircase leads to the first floor.

The classrooms are well-equipped. Each room has a teacher's table, students' desks, a board, a computer and a multimedia projection unit. There are special classrooms for Chemistry, Physics, Biology, History, Geography, English and Russian. My English classroom is on the second floor. It has three big windows. There are lots of potted plants on the windows sills, and we take good care of them. The board in our classroom is magnetic. We write with markers on it and attach our projects to it with magnets. Next to the board there are maps of Russia and Great Britain, various grammar tables and charts. There is a computer in the right-hand corner. We often listen to original English texts, songs and watch films on a big screen which make our lessons interesting.

I like my college. It provides us with everything to help us become good specialists.

##### At My College

Alexei is going to leave school in a year, but he realizes that he must start thinking about further education about further education right now, because it is essential to red for exams well beforehand. So he asks his brother to tell him about his college and advice.

**Alexei :** Vlad, I want to ask you about college life. Is it different from school life

**Vlad:** Well, it depends on what you are interested in. We, too, in college have lessons, and marks; teachers give us homework , and there are examinations and tests.

**Alexei:** Well, I see. But, then, is there any difference between a school and a college?

**Vlad :** Why, of course. First , at college we have special subjects in our curriculum. For example, if one is going to be a teacher, he or she will take pedagogy, psychology, and methods of teaching. If one wants to become an economist, he or she will study economics, accounting, taxation and a lot of other things. It's really very interesting. Second, if you work regularly, attend all the lectures and seminars, and get good marks, you will be given a scholarship. If you are at the top of the group, and have excellent marks, the scholarship will be higher.

**Alexei:** It sounds very nice, I must say. Now, please, describe your usual day at college.

**Vlad:** Well, our day starts in the assembly hall, where we al gather together and the head teacher calls the register. Then the classes begin. We have several lectures and seminars every day, and work in workshops. Students also can stay at college after classes to do research

**Alexei:** How are students assessed

**Vlad:** We have exams and credit tests twice a year . But of course, it is important how you work during the year.

### **Билет 1. Political System of Great Britain.**

The United Kingdom of Great Britain is constitutional monarchy. It has a monarch as its Head of State. The monarch reigns, with the support of Parliament.

Parliament consists of two chambers known as the House of Commons and the House of Lords. The House of Commons plays the major role in law-making. It consists of Members of Parliament, each of whom represents an area in England, Scotland, Wales or Northern Ireland.

The members of the House of Lords debate a bill passed by the House of Commons. The members are not elected.

Parliamentary elections are every five years. The minimum voting age is 18, and the voting is taken by secret ballot. The political parties choose candidates in elections. The party which wins the majority of seats forms the Government, and its leader usually becomes Prime Minister. He chooses the Cabinet of Ministers. #### **Билет 4. Traditional Meals in Britain**

The usual meals in Britain are: breakfast, lunch, tea and supper. Breakfast is generally a bigger meal than they have on the Continent, though some English people like a continental breakfast of rolls, butter and coffee. But the usual English breakfast is porridge or cornflakes with milk or cream and sugar, bacon and eggs, marmalade made from oranges with buttered toasts and tea or coffee. For a change, you can have a boiled egg, cold ham or, perhaps, fish.

People in Britain generally have lunch about one o'clock. The businessman in London usually finds it impossible to come home for lunch, and so he goes to a cafe or restaurant; but if he is making lunch at home, he has cold meat (left over probably from yesterday's dinner), potatoes, salad and pickles with a pudding of fruit to follow. Sometimes people have a mutton chop or steak and chips followed by biscuits and cheese, and some people like a glass of light beer with lunch.

Afternoon tea you could hardly call a meal but it is a sociable sort of thing as friends often come in then for a chat while they have their cup of tea with cake or biscuit.

In some houses dinner is the biggest meal of the day. In a great many English homes people make the midday meal the chief one of the day, and in the evening they have the much simpler supper - an omelette or sausages, sometimes bacon and eggs, and sometimes just bread and cheese, a cup of coffee or cocoa and fruit.

Travelling became a part of our life. Thousands of people travel every day either on business or for pleasure.

They travel by road, by train, by air or by sea.

Of course, travelling by air is the fastest and the most convenient way, but it is the most expensive, too. Travelling by train is slower than travelling by plane, but it is less expensive. You can see many interesting places of the country through the window. Modern trains have more comfortable seats. There are also sleeping cars and dining cars that make even the longest journey more pleasant. Speed, comfort and safety are the main advantages of trains and planes. That is why many people prefer them to all other kinds of travelling.

Travelling by sea is popular mostly for pleasure trips. Tourists can make voyages-on large ships to foreign countries. The trips on the Volga, the Don and the Black Sea are very popular today.

### **Билет 8. The British Education System.**

All state schools in Britain are free, and schools provide their pupils with books and equipment for their studies.

Nine million children attend 35.000 schools in Britain. Education is compulsory from 5 till 16 years. Parents can choose to send their children to a nursery school or a pre-school playgroup to prepare them for the start of compulsory education.

Children start primary school at 5 and continue until they are 11. Most children are taught together, boys and girls in the same class. At 11 most pupils go to secondary schools called comprehensives which accept a wide range of children from all backgrounds and religious and ethnic groups. Ninety per cent of secondary schools in England, Scotland and Wales are co-educational.

At 16 pupils take a national exam called «G.C.S.E.» (General Certificate of Secondary Education) and then they can leave school if they wish. This is the end of compulsory education.

Some 16-year-olds continue their studies in the sixth form at school or at a sixth form college. The sixth form prepares pupils for a national exam called «A» level (advanced level). You need «A» level to enter a university.

Other 16-year-olds choose to go to a college of further education to study for more practical (vocational) diplomas relating to the world of work, such as hairdressing, typing or mechanics.

Universities and colleges of higher education accept students with «A» levels from 18. Students study for a degree which takes on average three years of full-time study.

### Билет 9. Living a Long Life

It is often said that Japanese people, on average, live much longer than Europeans. To a large extent this must be due to the food most Japanese people eat since from the point of view of the life-style, life in modern Japan is no less stressful than ours in the west. The Japanese live on a diet largely made up of fish and rice. At lunch-time a typical Japanese family will consume at least twice as many vegetables as we do in Europe. In comparison with Europeans, the Japanese eat far less meat and fewer potatoes; at the same time, they eat seven times more fresh fish than we do which make their diet much healthier by far. It would be fair to say that, in general, the Japanese consume far less sugar than Europeans, though the modern Japanese — frequent visitors to Europe on business or for pleasure — are discovering the pleasures and dangers of western-style eating habits.

#### Questions:

1. On what diet do the Japanese prefer to live?
2. Do people in Japan eat more or less meat than Europeans?
3. What makes the Japanese diet much healthier than ours?
4. Japanese people eat twice as many vegetables as we do, don't they?
5. What do the Japanese discover when they come to Europe?

### **Билет 10. English houses**

The climate of a country is one of the factors that influence the style of its architecture. It can be best illustrated by British residential buildings. The weather in England is often cloudy and there are few sunny days in the winter season, therefore, as a rule, the windows in an English house are of a large size to catch as much light and sunshine as possible. In the houses built in the past century the windows, besides being large, opened upwards, which is very convenient on windy days.

Since there is much rain in England, typical British houses have high, steep roofs where rain water and melting snow can easily flow down.

Most of the houses have a fireplace which forms the most characteristic feature of an English home and is seldom seen in other European countries.

The plan of an English house also differs from that of the houses where we live. English architects plan some apartments vertically instead of planning them horizontally, so that an English family having a separate apartment

lives on two or sometimes three floors with rooms connected with a narrow staircase. They find it the most convenient style of apartment. There are usually three rooms in each apartment besides a kitchen and a bathroom:

a living room, a bedroom and a dining room.

### **Questions:**

1. Why do English houses have large windows?
2. What kind of roofs do typical houses have?
3. What attribute is a characteristic feature of an English home?
4. What is the difference between the plan of an English house from that of the houses where we live?

### **Билет 11. My Foreign Language Teacher.**

Learning of a foreign language is not an easy task. It is a long and slow process that takes a lot of time and efforts. That is why it is very important to have a good teacher. I am very grateful to my English teacher who made me interested in this subject. She is the person I loved best at school because our English lessons were very interesting and instructive.

We began to study English in the first form. So she was the first who gave us the knowledge that English is an international language, it is the language of business, diplomacy and international relations, the language of progressive science and engineering. She convinced us that it is absolutely necessary for every educated person, for every good specialist to know English well today.

Our teacher is very competent and a good professional. She has a good command of the English language. From lesson to lesson we improved our knowledge, learnt more and more new words, grammatical structures and put them into practice of speaking.

We were lucky enough to have such a patient and tactful teacher. She never mocked at the pupils if they said or did something wrong. She patiently corrected our mistakes and explained us everything we could not understand.

Our teacher did her best to make our lessons interesting and entertaining. We often worked in video class, watched English video films and then had a discussion. We got acquainted with English or American writers reading their works in the original. We communicated with native speakers of English.

She always looked perfect and we never saw her face angry or unfriendly. We felt that she loved us and this is very important in teacher's work.

Teachers do not only teach their subjects. They develop their pupils' intellect, their attitudes to life and to other people. With the help of my teacher I learned a lot. Knowledge of foreign languages opens many doors before you, gives you many opportunities and advantages.

#### **Билет 14. Climate in Great Britain.**

The British Isles which are surrounded by the ocean have an insular climate.

There are 3 things that chiefly determine the climate of the United Kingdom: the position of the islands in the temperate belt; the fact that the prevailing winds blow from the west and south-west and the warm current — the Gulf Stream that flows from the Gulf of Mexico along the western shores of England. All these features make the climate more moderate, without striking difference between seasons. It is not very cold in winter and never very hot in summer.

So, the British ports are ice-free and its rivers are not frozen throughout the year. The weather on the British Isles has a bad reputation. It is very changeable and fickle. The British say that there is a climate in other countries, but we have just weather. If you don't like the weather in England, just wait a few minutes.

It rains very often in all seasons in Great Britain. Autumn and winter are the wettest. The sky is usually grey and cold winds blow. On the average, Britain has more than 200 rainy days a year. The English say that they have 3 variants of weather: when it rains in the morning, when it rains in the afternoon, and when it rains all day long. Sometimes it rains so heavily, that they say «It's raining cats and dogs».

Britain is known all over the world for its fogs. Sometimes fogs are so thick that it's impossible to see anything within a few meters. The winter fogs of London are, indeed, awful; they surpass all imagination. In a dense fog all traffic is stopped, no vehicle can move from fear of dreadful accidents. So, we may say that the British climate has three main features: it is mild, humid and very changeable.

### **Билет 15. Family problems.**

"Honour your mother and father and you will live long and be well, if not, you will die" — says the Bible.

Some families are happy, some are dead. It seems to me the reason is misunderstanding of each other in the family.

One more thing, teenagers can take on most of the rights and responsibilities of adulthood. Before this occurs, however, they go through the period of adolescence and most of them experience conflicts at that time. They change rapidly both physically and emotionally and they search self-identity as they grow up and become more independent.

Sometimes teenagers develop interests and values different from those of their parents. That sets a conflict between two generations, which leads to a gap in mutual understanding. Traditional disagreements are: the time to come home at night, doing work about the house and the friends to spend time with.

I'd like to point out, that teens face a number of problems: drinking alcohol or using drugs. Moreover, some children run away from their homes. Most of them return after a few days or weeks, but some turn to crime and become juvenile delinquents.

I'm convinced that sometimes parents do not care about their children. It is exactly at that age when young people need a piece of advice or help. Different TV programmes and magazines for the young come to their rescue. In case of need you can also dial a special telephone number, the so-called 'telephone of trust'.

But it's not the way out. Parents should help their children and find the right approach to them so as to make everything clear. Being able to view the problems more rationally, they should try to do their best to resolve them. We need to learn to talk our problems over in our family. If we are able to do it, everything will be all right.

#### **Questions:**

1. What does the Bible say about parents?
2. What is the reason of unhappy family?
3. When do teenagers experience conflicts?
4. What problems do teens face?
5. What do teenagers especially need at that age?
6. How should parents help their children?
7. What do we need not to have problems in the family?

### **Билет19. Children lack skill in holding pencils due to iPads.**

A study shows that new technology is reducing children's ability to use a pencil or pen. The study is from the National Health Service in the UK. Researchers said that nowadays, children spend so much time swiping iPads or mobile phone screens that they cannot hold a pencil properly. Children are not using pencils, so they now lack the muscle strength in their hands to be able to write properly. Researcher Dr Sally Payne said: 'Children are not coming into school with the hand strength and ability they had 10 years ago. Children coming into school are being given a pencil but are increasingly not able to hold it because they don't have the fundamental movement skills'.

The researchers said technology is changing the physical way that children write, draw or make things. Children are increasingly using technology to create. Dr Payne explained why. She said: 'It's easier to give a child an iPad than encourage them to do muscle – building play such as building blocks, cutting and sticking, or pulling toys and ropes. Because of this, they're not developing the underlying foundation skills they need to grip and hold a pencil.' Some experts say technology may be causing bigger problems. One expert said if a child isn't strong enough to hold a pencil, perhaps their whole body is weak. She said it was better for children's

Physical development to climb trees than to watch YouTube videos.

### **Билет 21. Educators recommend more outdoor learning.**

Researchers in Britain are telling schools that children should be doing more learning outdoors. The researchers say there is currently too much focus on sitting in classrooms to pass exams. They say outdoor learning is important for students' social skills, health and development. It also increases their quality of life. There have been five major reports over the past decade that stress the need for students to learn outdoors and experience nature more. The researchers say that schools are not taking the advice of these reports. They say outdoor learning is on the decline in Britain. The researchers

want Britain's government to act to put outdoor learning on the curriculum of all schools.

The report is from researchers at the University of Plymouth and the organization Natural England. It says there are many benefits of outdoor learning for children. One advantage is that it builds confidence in children as they experience things that were normal for their parents, like climbing trees. Another advantage is that it makes children more aware of the environment and teaches them to respect nature. There are also health benefits as children exercise more instead of sitting in a classroom or being at home with video games. A final benefit is that it helps with the problem of what is called 'strange danger'. This is an idea many children in the UK today grow up hearing.
